

First year : Government budget .

English for Specific Purposes (ESP):

Miss benmerah

Definition : It is a method of teaching English to people who need it for a particular job or activity, such as business or medicine .

Types of ESP:

- **Business English:** Teaches English for communication in business contexts, including meetings, presentations, negotiations, and email writing.
- **Medical English:** Teaches English for healthcare professionals, covering medical terminology, patient communication, and writing medical reports.
- **Legal English:** Teaches English for legal professionals, including contract drafting, court proceedings, and legal research.
- **Technical English:** Teaches English for engineers, scientists, and other technical professionals, focusing on technical vocabulary, writing technical reports, and giving technical presentations.
- **Academic English:** Teaches English for academic purposes, including writing research papers, giving presentations, and participating in academic discussions.

Benefits of ESP:

Relevance: ESP directly addresses the language needs of learners, making learning more meaningful and engaging.

Efficiency: By focusing on specific language skills, ESP can help learners achieve their language goals more quickly.

Practical Skills: ESP equips learners with the practical language skills they need to succeed in their chosen field.

Confidence: ESP can boost learners' confidence in their ability to use English in professional or academic settings.

First year : Government budget .
